Penelitian ini bertujuan untuk: (1) mengetahui seberapa baik tingkat kualitas budaya sekolah siswa Jurusan Teknik Pemesinan SMK Negeri 3 Yogyakarta; (2) mengetahui seberapa baik tingkat kualitas keteladanan guru berdasarkan persepsi siswa Jurusan Teknik Pemesinan SMK Negeri 3 Yogyakarta; (3) mengetahui seberapa baik tingkat kualitas karakter siswa Jurusan Teknik Pemesinan SMK Negeri 3 Yogyakarta; (4) mengetahui besar hubungan yang positif dan signifikan antara budaya sekolah dengan karakter siswa Jurusan Teknik Pemesinan SMK Negeri 3 Yogyakarta; (5) mengetahui besar hubungan yang positif dan signifikan antara keteladanan guru dengan karakter siswa Jurusan Teknik Pemesinan SMK Negeri 3 Yogyakarta; dan (6) mengetahui besar hubungan yang positif dan signifikan antara budaya sekolah dan keteladanan guru dengan karakter siswa Jurusan Teknik Pemesinan SMK Negeri 3 Yogyakarta.

Metode Penelitian yang digunakan dalam penelitian ini adalah metode penelitian survei. Populasi yang digunakan dalam penelitian ini adalah seluruh siswa Jurusan Teknik Pemesinan SMK Negeri 3 Yogyakarta yang berjumlah 396 orang, sedangkan sampel yang dibutuhkan adalah 196 orang dengan taraf kesalahan yang digunakan sebesar 5%. Pengambilan sampel menggunakan teknik *proportionate stratified random sampling*. Teknik pengumpulan data menggunakan kuesioner dan wawancara. Instrumen kuesioner digunakan sebagai instrumen pokok penelitian, sedangkan instrumen wawancara digunakan sebagai penguat instrumen kuesioner. Teknik analisis data dalam penelitian ini menggunakan analisis deskriptif, uji persyaratan hipotesis (uji normalitas, uji linearitas, uji multikolinearitas), analisis korelasi ganda, analisis korelasi parsial, dan analisis regresi ganda dua prediktor.

Hasil penelitian ini menunjukkan bahwa: (1) tingkat kualitas budaya sekolah menurut persepsi siswa Jurusan Teknik Pemesinan SMK Negeri 3 Yogyakarta adalah sebesar 69,48% dari yang diharapkan dan termasuk dalam kriteria yang baik; (2) tingkat kualitas keteladanan guru menurut persepsi siswa Jurusan Teknik Pemesinan SMK Negeri 3 Yogyakarta adalah sebesar 59,08% dari yang diharapkan dan termasuk dalam kriteria cukup baik; (3) tingkat kualitas karakter siswa Jurusan Teknik Pemesinan SMK Negeri 3 Yogyakarta adalah sebesar 64,86 % dari yang diharapkan dan termasuk dalam kriteria yang baik; (4) terdapat hubungan positif, kuat, dan signifikan pada taraf kesalahan 1% antara budaya sekolah dengan karakter siswa Jurusan Teknik Pemesinan SMK Negeri 3 Yogyakarta dengan korelasi sebesar 0,73; (5) terdapat hubungan positif, kuat, dan signifikan pada taraf kesalahan 1% antara keteladanan guru dengan karakter siswa Jurusan Teknik Pemesinan SMK Negeri 3 Yogyakarta dengan korelasi sebesar 0,69; dan (6) terdapat hubungan positif, kuat, dan signifikan pada taraf kesalahan 1% antara budaya sekolah dan keteladanan guru dengan karakter siswa Jurusan Teknik Pemesinan SMK Negeri 3 Yogyakarta dengan korelasi sebesar 0,78.

Kata Kunci : budaya sekolah, keteladanan guru, karakter siswa

ABSTRACT

CORELLATION BETWEEN SCHOOL CULTURE AND EXAMPLARY OF TEACHER WITH CHARACTER OF STUDENT DEPARTMENT OF MACHINING ENGINEERING OF SMK NEGERI 3 YOGYAKARTA

The purpose of this Research are to: (1) know as good as the quality of school cultures at student Department of Machining Engineering of SMK Negeri 3 Yogyakarta, (2) know as good as the quality of examplaries teacher based on the perception of student Department of Machining Engineering of SMK Negeri 3 Yogyakarta, (3) know as good as the quality of characters student of Department of Machining Engineering of SMK Negeri 3 Yogyakarta, (4) find the positivally relationship and the significantly between school culture with character of student of Department of Machining Engineering of SMK Negeri 3 Yogyakarta, (5) find the positivally relationship and the significantly between exemplary of teacher with character of student of Department of Machining Engineering of SMK Negeri 3 Yogyakarta, (6) find the positivally relationship and the significantly between school culture and exemplary of teacher with character of student of Department of Machining Engineering of SMK Negeri 3 Yogyakarta.

The method of research is survey explanatory method. Population that used in research is all student of Department of Machining Engineering of SMK Negeri 3 Yogyakarta about 396 people, while the sample required in research is 196 people with a level of error in 5%. The technique of sampling in research is proportionate stratified random sampling. There is two kind the technique of data collection such as questionnaires and interviews. The questionnaire instrument is used to the main instrument of research, while the interview instrument is used to the reinforcement of questionnaire. The technique of data analysis in this research such as descriptive analysis, test requirement of hipothesis (as normality test, linearity test, multicollinearity test), multiple corellation analysis, partial correlation analysis, and the multiple regression analysis of two predictor.

The result of reseachers have indicate that: (1) the quality of school cultures of student Department of Machining Engineering of SMK Negeri 3 Yogyakarta is about 69,48% from the expected and included in the criteria is good enough, (2) the quality of the teacher examplary based on the perception of student Department of Machining Engineering of SMK Negeri 3 Yogyakarta is about 59,08% from the expected and included in the criteria is enough. (3) the quality of student character of Department of Machining Engineering of SMK Negeri 3 Yogyakarta is about 64,86% from the expected and included in the criteria is good. (4) There is a positive relationship, strong, and significant at 1% level of error between school culture with character of student of Department of Machining Engineering of SMK Negeri 3 Yogyakarta with a correlation of 0,73. (5) There is a positive relationship, strong, and significant at 1% level of error between the examplary of teacher with character of student of Department of Machining Engineering of SMK Negeri 3 Yogyakarta with a correlation of 0,69. (6) There is a positive relationship, strong, and significant at 1% level of error between school culture and examplary of teacher with character of student of Department of Machining Engineering of SMK Negeri 3 Yogyakarta with a correlation of 0,78.

Key Words: school culture, examplary of teachers, character of student.
